MAIL-ORDER AUCTION PROCEDURES

Many dealers use mail sale/auctions as a method for selling records to collectors. "Auction" means that you, the bidder, will submit a written bid or offer on any item that you are interested in. At the close of the sale (many dealers use the closing date noted on the bottom of Page 2 of each RECORDSMITH issue), the dealer offering records at auction will compile all the bids and notify the bidder of his successful offer of bids. The bidder will then honor his/her bids by responding promptly to the dealer. Dealers have found that record auctions have several benefits, both for the collector and the dealer.

1. The customer is paying what the record is worth to him, in many instances less than the "market value"
 2. Record auctions are mainly listings of single copy records. Many times, the dealer does not know the current "market value" of a disc. Through the competition of auctions, a fair market price is established.
 3. Auctions provide an equal opportunity for customers to acquire hard-to-find records, therefore, the customer that the record means the most to has a fair chance of getting what he wants.
 4. The main disadvantage is the time delay in obtaining records that you want. If charge card numbers are included with the bids, than a winning bid notification does not have to be sent, and the records will be mailed much faster.
- If you've not tried record auctions in the past, give it a try. Many have found

bidding to be both fun and advantageous. GOOD LUCK!

SHIPPING AND HANDLING

Shipping is generally regarded as actual postal rates.

Handling as defined by Webster, "the manual or mechanical method or process by which something is moved, carried, transported, etc."

Many companies handling charges are based on actual value paid, which we don't feel is fair. It is our contention that handling charges should be based on volume actually "handled."

What goes into handling?

Materials: Packing cartons, cardboard inserts, tape, labels, packing material, etc.

Cost: approx. \$5.00

Labor: Employees to pull items, clean, pack, deliver to Post Office etc.

Cost: Based on average wages \$15.00/hr.

We have had good success in recently using the US Post Office, and mailing heavier packages by "Media Mail". Have had little to no problems, the cost is considerably less expensive than UPS or 1st Class. Our overseas and Canadian customers will still have to be sent First Class International or Priority International. (minimum charge is \$28.00, if package weights over 4lbs it goes up considerably).

NOTE: Postage Rates keep rising, along with our boxes and supplies we are trying to keep up Additional Notes on Editorial page

Subscription Information

There is NONE, if you send in bids or order. If you **do not bid** or order from this issue, & would like to receive the next issue you must send in **\$5.00**

CONSIGNMENT SALES AGREEMENT

Consignment sales through Record Smith, is an easy, no hassle, way for disposing of your record collection. You will be exposed to thousands of collectors/dealers through printed publication and internet exposure.

Here's how it works.

- 1) You send us (at your expense, unless other arrangements are agreed upon), the records you would like to sell.
- 2) We will enter them in our system, grade them, publish your list, mail out, entirely at our expense. When bids are received we will compile them, notify successful bidders, we handle all mailing of records, again at our expense.
- 3) When sale is closed we will notify you with a copy of results, along with a check for 50% of dollars received, and likely make you an offer for the remaining balance of unsold items, which you can accept or not. If not we will return your unsold items at your expense or they will be donated to a charity, and provide you with donation slip for taxes.
- 4) We reserve the right to group together any records we feel will sell better that way, as opposed to individually listing them. We do not want records that are in BAD condition, DO NOT SEND poor condition material unless extremely rare. Junk items will not be run or returned. If you have any questions regarding your collection, we urge you to write or call us prior to shipping. Listings will appear, on a first come basis, space permitting in Record Smith Publications.

The total procedure from when we receive your records to when you will receive a check is approximately 8-10 weeks, depending on volume.

When sending records, be sure to include your name and address, mark on boxes "consignment", and number the boxes 1 of 3, 2 of 3, 3 of 3, etc. to make sure all items are received.

We accept any type of musical items in addition to records, sheet music, photos, books, mags, CD's, tapes, equipment, etc.

I am sending for 50/50 consignment _____ (# of items) _____ (type, ie; 78's, Lp's, 45's, etc).

I agree to the terms set forth in the above letter.
